PROFESSIONAL SUMMARY

Highly organized Operations Coordinator and Executive Assistant with experience supporting business operations, coordinating projects, improving workflows, and assisting remote teams across both traditional businesses and Web3 organizations.

Experienced in procurement support, executive assistance, documentation, project coordination, and AI-assisted productivity systems. Recognized for bringing structure to fast-moving environments, managing multiple priorities independently, and improving operational efficiency through practical systems and organized execution.

Passionate about helping teams operate more efficiently by combining strong organizational skills, analytical thinking, and modern AI tools to simplify processes and support business growth.
